Des-Case Corporation announces accounting staff changes

NASHVILLE, Tenn. — Des-Case Corporation, a leading manufacturer of industrial contamination control products, is pleased to welcome Brenda Jones.

Jones joins the company as the accounting manager, and has worked in the accounting field for ten years. In her career, Jones has held a variety of accounting positions, her most recent being the Accounting Manager for Cheekwood Botanical Garden and Museum of Art.

“Our consistent, rapid growth highlighted our need to bring someone of Brenda’s caliber to our team,” said Brian Gleason, president. “Brenda is a tremendous asset. Her positive attitude and determination have already made a significant impact.”

Des-Case Corporation specializes in contamination control products for industrial lubricants. Headquartered near Nashville, TN, the privately held company markets an entire line of products designed to help companies make their equipment investments last longer. They distribute Des-Case®, Hydroguard®, VentGuard™, FlowGuard™, DoublePlay™, and TriplePlay™ branded solutions through an extensive distribution network, OEM’s and private label partners. The company’s products feature designs unparalleled in the marketplace and are used wherever lubricant life and performance are essential to daily operations.
