

FlowGuard™ Compact Panel Units

A simple solution for smaller spaces

Overview

Industry spends millions of dollars annually treating the negative effects of contamination caused by dirt and moisture, such as excess machine wear, production downtime, and repair costs.

Whether you have an application that needs regular filtration, or a maintenance location where you bring equipment to be filtered, our compact FlowGuard™ panel unit is a made-to-order solution that can be mounted where you need it most.

Features	Benefits
Compact size	60% smaller than our standard unit
Industrial powder-coated paint	Provides durability
Customizable colors	Makes it easy to differentiate between assorted lubricants by paint color selection
Sample ports	Allows for easier testing of oil while reducing system contamination.
Pressure monitors	Pressure gauge protects your system, allowing you to monitor system pressure. Additional differential pressure indicator announces filter replacement time.

How to order FlowGuard™ Panel Unit Series:

Select the desired symbol (in the correct position) to construct a model code. Then contact your local distributor or call Des-Case if you don't see the options you need or would like additional assistance.
